

# APEX ARABIA

# ABOUT US

Apex Arabia is dedicated to safeguarding your digital landscape. With a team of proficient cybersecurity experts, we provide comprehensive solutions tailored to meet the unique needs of your organization. Our services include risk assessment, threat detection, incident response, and employee training, ensuring that your sensitive data remains secure from evolving cyber threats. We believe in fostering a culture of security awareness, empowering businesses to protect the customer's assets effectively.

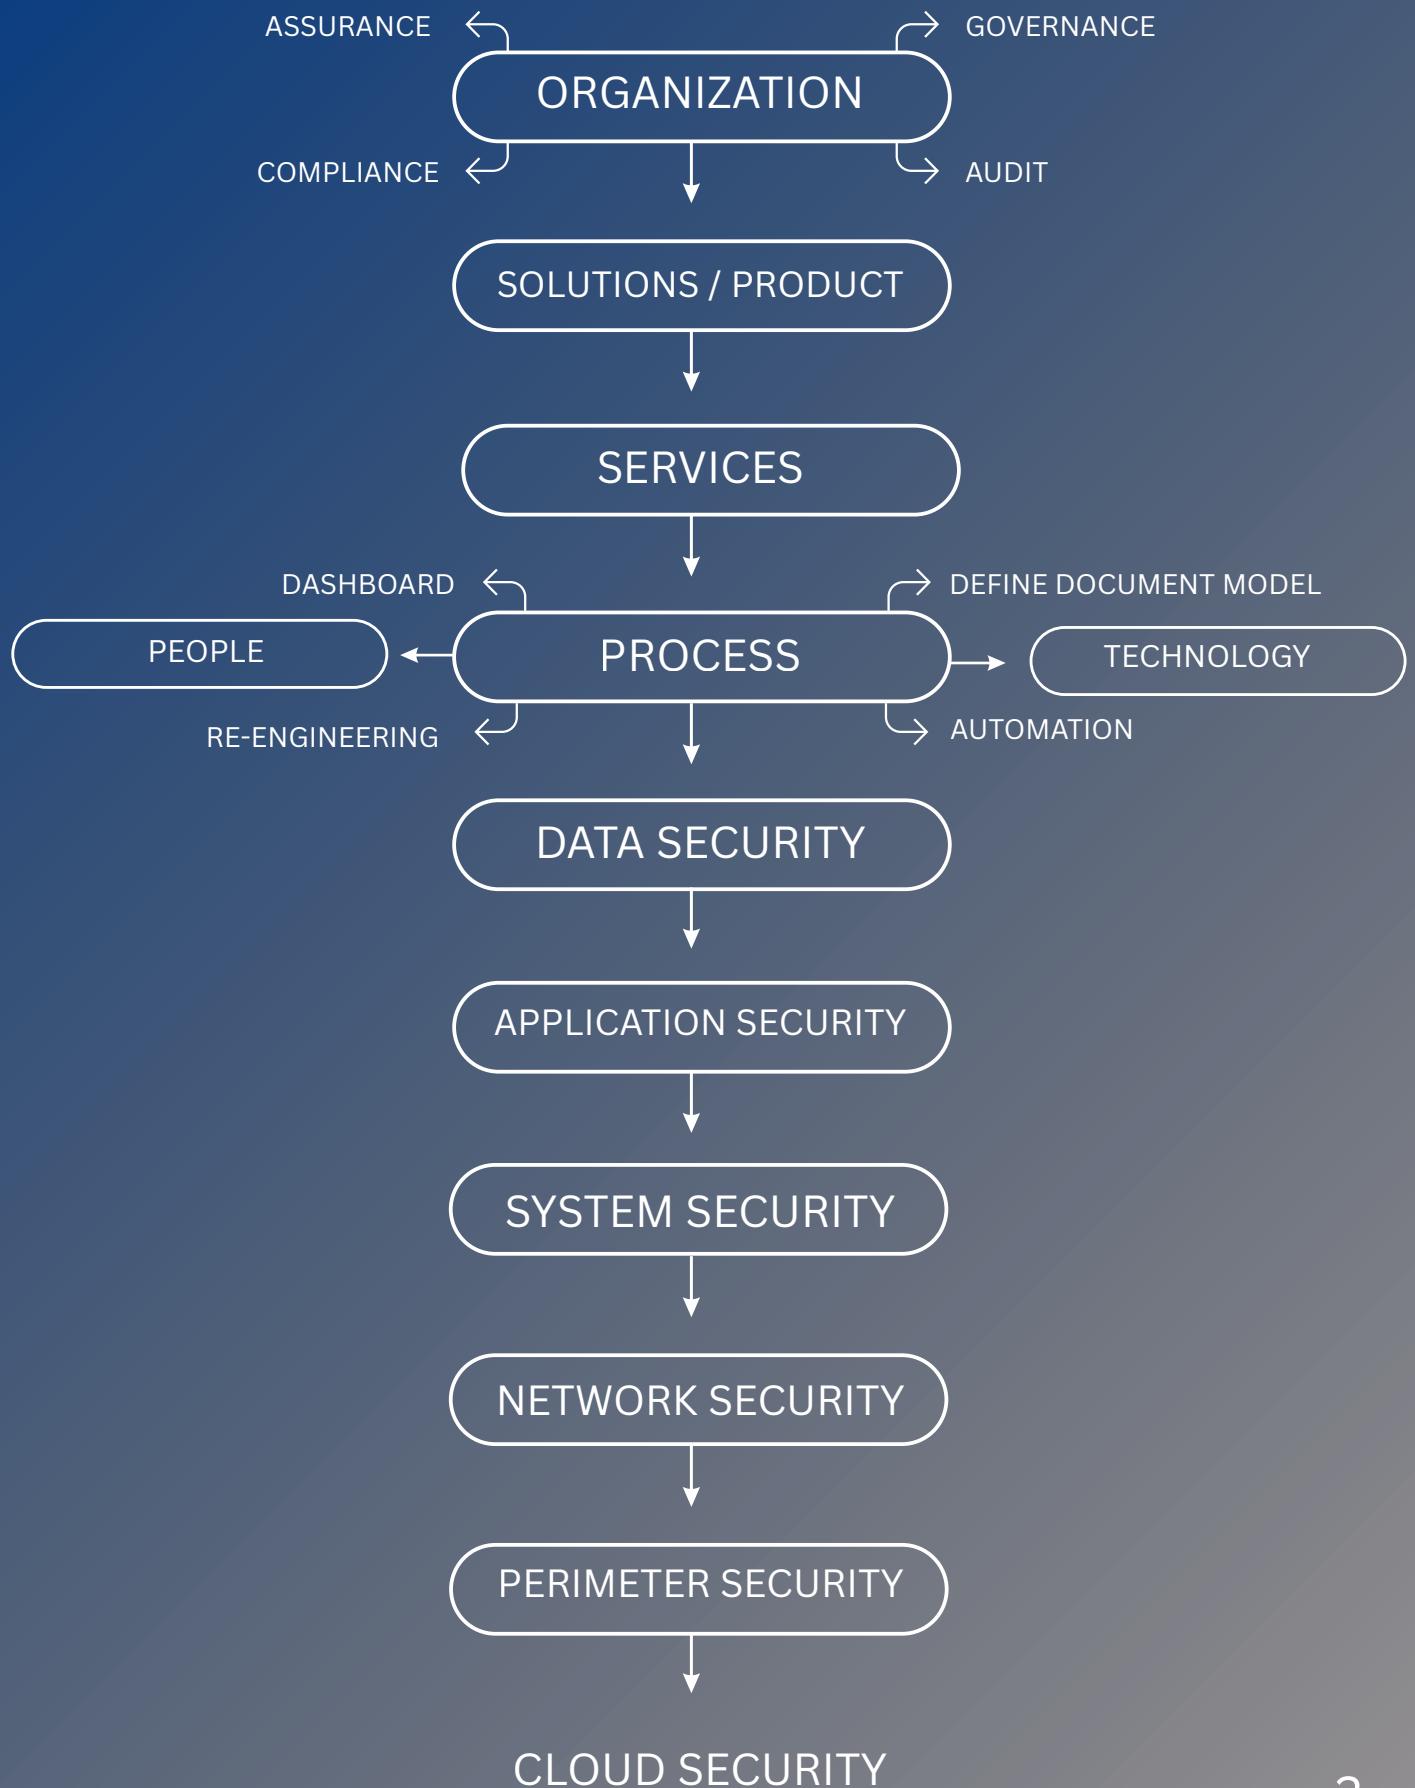

# MISSION

Our mission is to protect businesses from evolving cyber threats while streamlining operations through business process automation. We are committed to delivering tailored, reliable, and transformative solutions that empower our clients to thrive securely and efficiently in the dynamic Saudi market.

# VISION

To be the premier partner in Saudi Arabia for businesses seeking innovative cybersecurity and automation solutions, empowering organizations to secure their operations, streamline processes, and drive sustainable growth.

# CYBERSECURITY STAFF AUGMENTATION

We offer cybersecurity staff augmentation services, providing highly skilled professionals to enhance your team's capabilities, meet project demands, and drive organizational success.

## Key Benefits:

### Specialized Expertise:

Gain access to professionals skilled in areas such as threat analysis, compliance, and penetration testing.

### Flexibility:

Scale your team based on project needs or security priorities

### Cost-Effectiveness:

Avoid the overhead of hiring full-time staff while ensuring access to the latest skills.

### Quick Deployment:

Reduce the time spent on recruitment and training.

# APEX ARABIA MODEL:

## **Project-Based augmentation:**

Suitable for short-term needs like system audits or upgrades.

## **Skill-Based Augmentation:**

Targeted hiring for expertise in specific areas such as AI, Security or Cloud infrastructure.

## **Onshore and Offshore Augmentation:**

Balances quality, cost, and time zone considerations.

# TRAINING:

We specialize in providing training programs for CISOs, Certified Ethical Hackers (CEH), Cisco Certified Network Associate (CCNA R&S), (CCNA Security), and Cybersecurity Awareness, equipping professionals with the skills to address evolving cyber threats.
